SKILLS

SOFT SKILLS

- Team player
- Rigorous
- Curious
- Creative
- Fast learner

HARD SKILLS

- Unity, Godot
- OpenGL, GLSL
- C/C++/C#
- Python
- LaTeX
- Git

LANGUAGES

FLUENT: English | French | Arabic
BEGINNER: Spanish

EDUCATION

- 2024 - 2026
UNIVERSITY OF MONTPELLIER -
MONTPELLIER, FRANCE
- Master IMAGINE : Image processing, 3D and Video Games
- 2021 - 2024
UNIVERSITY OF MONTPELLIER -
MONTPELLIER, FRANCE
- Licence in Computer Science

HOBBIES

Travel - UAE, Cyprus, Sweden, Spain, Portugal, etc.
Sports - Basketball, Badminton
Video Games - Pokémon, Outer Wilds, Super Smash Bros., etc.
Other - Comic Books, Cooking

WORK EXPERIENCE

APPRENTICE TOOLS DEVELOPER

09/2025 - 08/2026

Illogic Studios

- Developed **Python** tools for artists and production teams (USD, Houdini, Prism, Deadline, etc.)
- Code **optimisation**, refactoring, bug fixing
- Assisted for the implementation of a developer pipeline (git, **Domain Driven Design**)

UNITY GAME DEVELOPER

08/2024 - PRESENT

Plamp Studio

- Developer for a **cross-platform** (Mobile & PC) Unity game
- Implemented boss fights, placement systems, enemy spawners, **refactoring** control system, etc.

PRIVATE TUTOR

12/2021-06/2024

Skoolup

- **Tutored** multiple students in **Maths**, French, English from grades one to ten

PROJETS

APPROXIMATION OF PHYSICAL PROCESSES FOR TERRAIN SIMULATION

03/2025-05/2025

- Developed in **OpenGL** and **C++**.
- User Interface made with **QT5**
- Implementation of multiple physical processes: hydraulic and thermal **erosion**, **particle system** for wind sediment transport, **shallow water simulation**, etc.

GAME ENGINE "FROM SCRATCH"

03/2025-05/2025

- Developed in **OpenGL** and **C++**
- Implementation of a **physics engine**, **scene graph**, textures, **differed rendering**, Entity Component System
- **Robust** architecture designed for developers in mind

OCEAN SYNTHESIS IN GODOT

02/2025-05/2025

- Developed in **GLSL**, **GDSHader** and **GDScript**
- Fast, orientable, aperiodic synthesis
- Implemented **Tiling and Blending**, **LEAN** Mapping and wave orientation
